Subject: NW Natural, Interim Design Report Contents and Submittal Schedule
Date: 09/24/2009 12:55 PM
Attachments: [Lfni-NWN-IDRSubmittal.pdf](#)

Hello Bob.

The attached letter provides DEQ's comments and direction regarding the contents and schedule of the Interim Design Report for source control measures (SCMs) being planned for shoreline segments 1 and 2 along property owned by NW Natural and the northern portion of property owned by the Siltronic Corporation.

<<Lfni-NWN-IDRSubmittal.pdf>>

A signed hard copy of the letter will be sent to you via regular mail this week.

As indicated in the attachment, DEQ is directing NW Natural to:

- Incorporate the results of the water treatment system pilot study into the Interim Design Report;
- Complete the Interim Design Report, the contents of which should include:
 - an interim design and sequencing plan for a vertical barrier, and HC&C system and water treatment system;
 - a SCMs performance monitoring program; and
 - general descriptions of the approaches and timeframes for conducting uplands DNAPL removal.
- Submit the Interim Design Report on or before November 7, 2009.

The letter also advises NW Natural that if the Interim Design Report is not received by November 7th incorporating DEQ's comments and direction, DEQ intends to proceed with assessment of stipulated penalties.

If you have questions regarding this letter, please contact me.
